

Silicone Remover

Pre-moistened cloth with remover CP 015

An innovative solution for surface cleaning before lacquering. Thanks to a cloth soaked in silicone remover (**CP 015**) it is a great way to prepare the surface. The solution is tailor-made to suit individual needs of the user. The use of wipes eliminates the need of having a remover and a special cloth.

Hermetically sealed sachet keeps cloth clean and appropriately pre-moistened which guarantees the perfect preparation of the spraying surface. After applying the remover through a soaked cloth to the part we clean wait around 4 minutes for evaporation and after wipe the surface with a dry cloth.

- Sachet size – 80x120 mm
